

FULLER, SOFTER,
NATURAL LOOKING LIPS

Emervel[®]

Are you ready for your close up?

LET YOUR LIPS DO THE TALKING

Lips are personal to us all, an individualised tool we use every day and is often the centre of attention without even knowing. Our lips convey warmth and receptivity so you want a quality product to enhance and create your desired look.

Beauty ideals have changed over time. Obvious volume and augmentation of the lips that has been the trend in the past, is on the way out. We now look for symmetry and balance rather than sizeable impact. Let Emervel Lips give you the result you expect.

HOW OUR LIPS AGE

The lips and mouth area are often exposed to external factors that result in ageing; both from diverse weather conditions and smoking, but also because you use it every day when you laugh and talk. Our lips do not retain water the same way other skin tissue does, therefore they are more susceptible to dehydration, thinning and imbalance. Lip treatments are an effective way to achieve fuller, healthier looking lips to give you a more youthful appearance.

FEEL THE LONG-LASTING SOFTNESS OF BEAUTIFUL LIPS

EMERVEL LIPS - THE SCIENCE PART...

Emervel® Lips is a Hyaluronic Acid dermal filler and part of the Emervel portfolio, designed using the unique Optimal Balance Technology™, which it enables a safe, long lasting treatment outcome.

Emervel Lips has been tailor made to integrate into the delicate lip tissue to create beautiful looking lips that are soft and natural. It extremely versatile and can be used to increase volume to create fuller looking lips, add definition or contour the lip line - meeting your every need.

MEETING YOUR EXPECTATIONS

Emervel Lips contains Lidocaine, a local anaesthetic to make your treatment experience as comfortable as possible.

In studies, Emervel Lips showed excellent tolerability with mild to moderate swelling. This means that you can feel assured if you have a lunch time treatment you can return to work with a natural smile and people wont even notice (except that you have lovely looking lips).

92%*OF PATIENTS WOULD LIKE TO HAVE EMERVEL AGAIN¹

HOW CAN EMERVEL LIPS ENHANCE MY LIPS?

ENHANCE AND REBALANCE YOUR LIPS TO GIVE A NATURAL, REVITILISED APPEARANCE.

+ Enhance Lip Volume

+ Add definition to the lip line/border

+ Enhance and lift your cupid's bow adding definition

+ Reduce visible smoker lines and lift the mouth corners to give you a happy smile.

NATURAL LOOKING RESULTS BEFORE & AFTERS

Before

After

3 months later

"I had my lips enhanced and on the same evening went out for dinner. No one could tell that they had just been treated and that gives me the confidence that you can achieve a natural result with Emervel." Vikki

After

Courtesy of Dr Beatriz Molina - Medikas

"One of the main benefits is that it doesn't swell very much at all in comparison to most of the other products on the market. It settles much quicker so people can actually have their lips done and in 98% of cases go out for a meal that night without it being overly noticeable"

FAQ'S

WHAT IS HYALURONIC ACID?

Hyaluronic acid is a naturally occurring sugar that exists in almost all living organisms. It absorbs water and is also important for the transport of nutrients, regulating water balance and giving volume and structure to our skin.

IS EMERVEL SAFE?

Emravel has undergone extensive testing to ensure safety and efficacy are clinically proven. The advantage of hyaluronic acid products, they offers long-lasting yet reversible and non-permanent results. During your consultation, your fully qualified practitioner should address any concerns and expectations.

HOW LONG DOES A TREATMENT TAKE?

Treatment will only begin once a full consultation and medical history is completed. After this step has been finalised the treatment is simple and quick - It normally takes around 15-20 minutes.

WHAT TO EXPECT AFTER YOUR TREATMENT.

Results can be seen instantly. Patients can experience a little discomfort immediately after treatment, but effects such as swelling, redness and itching usually resolve by themselves after a few hours or days dependent on each individual.

WILL I NEED A TOP-UP?

To maintain your look, you will need to revisit your practitioner for repeat treatment or a 'top up', as Emravel is not permanent. Retreatment scheduling will be advised by your practitioner, but most patients return for a top-up after 6-12 months.

Emervel®

Emervel Lips is specifically designed for smooth integration into the sensitive lip tissue to improve fullness and definition , for a long lasting natural effect.
